Screen Printing Pricing

Screen Printing Pricing

Pricing depends on quantity, number of colors, and garment type. Contact us for a custom quote.

General Price Ranges

Prices vary based on:

- **Number of colors:** Each color requires a separate screen, so more colors = higher setup cost
- **Quantity:** Higher quantities reduce the per-piece price significantly
- **Garment type:** Premium brands and specialty garments cost more than standard options
- **Print locations:** Front, back, sleeves — each location adds to the per-piece cost

Contact us for a detailed quote tailored to your project.

Minimum Quantities

Minimum Quantities

Our standard minimum is **[X] pieces** per design for screen printing.

We offer small-run options for:

- Heat transfer vinyl (HTV) — no minimum
- DTF (Direct to Film) — as low as 1 piece
- Embroidery — minimums vary by design complexity

Contact us to discuss your specific needs — we work with orders of all sizes.

Volume Discounts

Volume Discounts

Quantity breaks are available. The more you order, the lower the per-piece price.

How It Works

Our pricing tiers reward larger orders with progressively lower per-unit costs. Volume discounts apply automatically when you reach quantity thresholds.

Ask for a quote with multiple quantity options to see your savings at different order sizes.
