

# Embroidery

## Embroidery

Embroidery gives a professional, textured look ideal for polos, hats, and corporate wear. Thread is stitched directly into the garment for a premium finish.

### Best For

- Corporate apparel and uniforms
- Hats, beanies, and bags
- Polo shirts and jackets
- Professional, upscale branding

### Considerations

- Design complexity affects pricing (stitch count)
- Very fine details may not translate well
- Best for logos and text, not photographic images
