

# Screen Printing

## Screen Printing

Traditional screen printing is ideal for large quantities and bold, vibrant designs. Ink is pushed through a mesh screen onto the garment, creating durable, long-lasting prints.

### Best For

- Large quantity orders (24+ pieces)
- Bold, solid-color designs
- Maximum durability and wash resistance
- Pantone color matching

### Considerations

- Each color requires a separate screen (setup cost per color)
- Not ideal for photographic or gradient-heavy designs
- Most cost-effective at higher quantities
